An extraordinary replica of the "Window of Tomar" is displayed at the grand staircase of the hotel at Artyzen Grand Lapa Macau. The original Window at the Convent of Christ in Tomar, Portugal was carved in stone in 1510 and symbolises the heroism of seafarers during the Age of Discovery. Carved by a team of artists at Lisbon's famous Fundação Ricardo Espírito Santo, the replica is one-third the size of the original at four metres high, two metres wide and weighs 400 kilograms.
