Spa Policy

The following information is provided for you in order to ensure the perfect Spa experience.

The Spa is a non-smoking environment. We thank you for your cooperation and understanding. We request that all valuables remain stored in your villa whilst you are at the Spa. The Spa will not be responsible for lost, stolen or misplaced items. All spa treatments and facility prices are subject to change without notice. Our spa guest service agents will assist you with any pricing inquiries you may have at the time of your reservation.

Mobile phones

To respect the natural and peaceful environment, the use of cellular phones and other communication devices are prohibited within spa premises. Should you need to have them with you, we kindly ask that you make sure your cellular devices are switched off prior to entering the locker rooms and treatment areas.

Noise levels

Noise levels should be kept to a minimum at all times, especially when passing the Treatment Rooms

Age requirements

The minimum age for Spa treatments is 12 years. Children under the age of 12 must be accompanied by an adult.

Reservations

We encourage our guests to schedule their appointments in advance to ensure that the preferred treatment and time or therapist is available. Same day bookings and walk-in appointments are always welcome, based on our availability. To schedule your appointment(s), please contact us directly at ext. 303 from your room or contact our guest service desk.

Cancellation policy

We value your business and appreciate your attention now to our cancellation policy. Please respect our therapists and our other guests by keeping your appointments. Because your appointments are guaranteed reservations for you, to avoid any unwanted situation we kindly request that you advise us a minimum of 6 hours prior to your appointment for your cancellation or rescheduling requests. No-show guests or guests omitting to advise us in due time will be subject to 50% charge of total bill. Please keep in mind that arriving late for your appointment may require us to shorten the length of the treatment, so as not to inconvenience other guests, with full charges applied. We regret that late arrivals will not receive extension of scheduled appointments.

Arrive early

Spa prepping is an important part of your experience. This will relax your mind and prepare your body to receive the therapeutic benefits of your ritual. We recommend that you arrive at least 30 minutes prior to your scheduled appointment time in order that you may relax and enjoy our facilities.

Shower

A quick shower just before your treatment ritual is recommended. This will ensure your skin is fresh and clean ready to absorb the nourishing ingredients of the products that will be applied to your skin during your treatment.

Communicate

Although you have filled out our Health Questionnaire, prior to beginning your treatment, feel free to discuss with your therapist any areas you would like her to focus on, or to be avoided. We invite you to let the therapist know if you feel any discomfort during your treatment ritual. Communication is the key to ensuring your spa experience is unforgettable. Keep in mind that bodywork and massage is similar to the effects of exercise in that toxins are freed from the lymphatic system and lactic acid is released from the muscles which may cause some soreness for a day or two after your visit.

What to wear

Unless the ritual description specifies otherwise, it is customary to arrive as you are. We will supply you with towels for your use while in the wet areas, as well as a robe for you to wear while resting in our Spa lounge. During your treatment ritual, an under garment will be given to you for use. Throughout the time you are under the care of your therapist, your body will be draped with linen for your privacy.

YOGA

The union between body, mind and soul. Yoga is an old age tradition that focusses on purity of thought and body as well as meditation or mindfulness.

Physical postures (Asanas) have a beneficial effect on internal organs and increase vitality while breathing (pranayama) increases lung function and restore balance to reduce stress.
