IN-HOUSE LOCAL ART EXHIBITION

This month's banner for our newsletter is the stunning "Longreach" by Genevieve Montgomerie. Genevieve's style weaves effortlessly between social realism and a contemporary take on the techniques of the Old Masters. Painterly yet smooth, inviting yet intimately personal reflections... her works are a testament to the light, depth, moods, possibilities and energies of the cleansing 'Water of Life' she finds herself immersed in.

Originally from Melbourne, Genevieve came to live in Western Australia in 1997. Discovering the incredible, intoxicating colour of the Indian Ocean and what magic it shed upon Perth's coastline, Genevieve immersed herself into sketching and painting it, which continues to bring her endless inspiration.

Genevieve's works are for sale through Studio Bistro. Should you need further information about the artist or how to purchase one of these pieces, please contact Reception or Dial 2 from your villa.

SPRING TIME IN THE CAPE

During the month of November, our reptilian friends are awakening from their slumber, so you may see small lizards or snakes on the move in the grounds of the resort. The black lizards are the **King's Skink** – an omnivorous reptile that eats vegetation and insects.

Also found at this time are Blue-tongued skinks, also known as bob-tail lizards, who love eating snails, beetles and spiders. These reptiles are quite harmless to humans, and are important to the ecology of the resort.

Please be careful of the snakes you may encounter in the resort grounds – the highly venomous dugite and tiger snakes are native to this region, and whilst they usually move away from human activity, at this time of year they are wanting to hunt and bask in the heat of the sun.

Do not venture into garden beds where you cannot see clearly and keep your villa doors closed if you are not in your room. Should you encounter a snake, please move away from it and contact Reception, as we have a snake wrangler on staff. Dial 2 from your room for Reception.
