

TRAVEL *with* CONFIDENCE

Quarantine Stays

We know that unexpected incidents during a trip can cause discomfort, especially getting sick when you are away from home, considering the current world events.

Marquis Los Cabos offers a suite for up to 7 nights free of charge for up to two people, provided that one or both have tested positive for CDC-approved COVID-19. This benefit applies to guests whose original reservation has a minimum of three effective nights.

After 7 days, we will offer a second antigen test free of charge to those guests who purchased the first test at our property. If the second test were negative, you would need to follow the CDC requirements for documentation to make your travel for entry into the United States.

FAQ

1. Will my companion be able to stay with me during my quarantine period?

If you and/or your companion test positive, both will be able to stay in the same suite you were already sharing, with a maximum of two people per suite.

If your companion test negative and you prefer to have separate suites, we may offer a preferential all-inclusive rate for the length of their stay.

2. Is there an additional charge for spending our quarantine at the resort?

We will add a daily charge for food and beverage during your quarantine period for the complimentary suite.

3. Can I spend my quarantine period in the same suite as my original stay?

Following health and safety protocols, the hotel shall decide and assign at that time the best-designated area for our guests in quarantine period.

4. Can I make use of the hotel facilities during my quarantine stay?

Due to health and safety protocols, during your quarantine period, you must remain in your assigned suite at all times. You are not allowed to use the facilities or public areas during this period. We will deliver your food and beverages directly to your suite.

5. I am traveling as part of a Group or Wedding program. Do I have access to these concessions for my quarantine period?

We request that you contact our Groups and Weddings team to review the details and concessions applicable to your reservation.

We know that our “new normal” is constantly changing, and we want to let you know that we are here to assist you.

Stay Healthy.
Stay Well.
Stay Safe.
